ANGELA BASKERVILLE

VICE PREDISENT OF CORPORATE SYSTEMS AND TALENT ENABLMENT, AT&T

Angela Baskerville is Vice President – Technology Services – Corporate Systems and Talent Enablement. She has over 20 years of experience in the information technology/telecommunications industry. Her experience includes solution delivery, program management, client liaison management, production support, transformation, and product development.

Angela leads a team providing innovative solutions & solving business impediments for clients in AT&T's corporate sector, including HR, Finance, Payments, Credit and Collections. She and her team are also delivering two key transformation initiatives to implement new technologies and services in the Corporate Systems space. In addition to managing these Corporate Systems initiatives, she is also responsible for developing the next generation of AT&T leaders through the Technology Development Program that specializes in the recruitment of diverse college hires with emerging technology skills. She also leads the company's Technical Talent Program which is designed to attract mid-career technologists to the AT&T brand.

Outside of her core responsibilities, Angela is a National Advisor for AT&T's oldest employee resource group, The Network. She also serves as an Advisory Board member for Howard University's College of Engineering and Computer Science. She is passionate about exposing young women to the possibilities of careers in STEM and an advocate for closing the representation gap in technical corporate spaces.
