

## DONNA CULLER

ASSOCIATE DIRECTOR-TECHNOLOGY – CORPORATE SYSTEMS AT&T

Donna Culler is an experienced Technical professional with demonstrated success in leading teams, business partnering and delivering service in the Technology industry. Donna began her career in Telecommunications as a Co-op for Bellsouth in 1998. She's held several positions within AT&T including Outside Plant Engineer, 911 and Mobility Network Reliability Center Area Manager and Senior Network Support for Construction and Engineer.

Donna served as a team lead and was part of the initial Management Systems Operations Control (MSOC) team. The team focuses on process management, process improvement and fact-based management within the business. Donna holds a BS in Industrial Engineering degree from Georgia Institute of Technology.

Donna is responsible for all aspects of the Atlanta Technology Development Program. Including candidate selections, onboarding, individual development, and project assignments.
